

Microsoft Government Community Cloud Eligibility Process

To participate in GCC High or GCC you must have approval from Microsoft, and it must be renewed every 2 years or at the beginning of your New Contract. This is typically referred to as Microsoft Validation and comes from the US Government Cloud Eligibility Team at Microsoft. **Microsoft can deny you access to the GCC High or GCC environment if you do not have an active eligibility.** Summit 7 is required to collect and maintain a copy of the validation for each of our GCC High and GCC customers.

Use the link below to start your Eligibility Intake Form for Microsoft Azure Government, Office 365 GCC High or GCC Moderate.

<https://azure.microsoft.com/en-us/global-infrastructure/government/request/?ReqType=General>

- **For GCC High Customers**

Please check the "General" box.

- **For GCC Customers**

Please check the "O365 GCC CSP Customer" box.

A field will populate for you to enter an "Existing Direct CSP Partner Tenant GUID." Please enter: **0f93332f-2ca9-4265-9897-dbcf8034effa**. This is the Summit 7 tenant that enables us to create your GCC Moderate tenant, set up Azure Commercial subscriptions and procure GCC Licensing.

- **For both GCC & GCC High customers**

Click "Next." Please complete the remaining organization and contact information. Check any supporting information boxes, agree to the Microsoft Government terms and conditions, and click "Submit."

Once you have submitted the online form, Microsoft will either email your approval or the approval team may request that you provide one (1) of the following four (4) types of documentation for eligibility:

Option 1: A valid CAGE Code or full SAM Registration (with DUNS) to determine eligibility to do business with the U.S. Government (sam.gov). For instructions on how to obtain a CAGE Code, please refer to: [Entity Registration](#) | [SAM.gov](#)

Option 2: A contract that calls out ITAR, Export Controlled, CUI or DFARS 7012 as requirements.

Option 3: A Sponsorship letter signed by a government official – please select "Customers handling government-controlled data" for the first question, "Select a Category".

Option 4: Any documentation providing status as a Category 1 U.S. entity.

Once you receive your approval from the US Government Cloud Eligibility Team (usgcce@microsoft.com), please send your US Government Cloud Eligibility to your Summit 7 Account Manager.
